

KEYCO LoRa[®] GPS Tracker

The KEYCO LoRa[®] GPS Tracker is a practical pendant which you can attach to persons, pets or objects. It enables you to track paths and stays with the app 'KEYCO Plus'. Moreover, you become able to receive emergency calls from beloved people. Thanks to the KEYCO LoRa[®] GPS Tracker, you can prevent yourself from losses and act in case of danger.

Main features:

Locating with history display

Choose whether you want to locate the KEYCO LoRa[®] GPS Tracker at 2, 5 or 10 minute intervals and have its position data displayed over time.

Zone alert (Safety zones)

Define up to 3 zones in the 'KEYCO Plus' app to be notified when your KEYCO LoRa[®] GPS Tracker leaves or enters such a zone. To create a zone, simply enter an address and select a radius for the perimeter.

SOS button

Receive distress calls from people in need due to the function key and know immediately where they are.

Suitable for everyday use

The KEYCO LoRa[®] GPS Tracker proves itself in everyday use thanks to splash-water protection and temperature insensitivity. It can also be attached quickly with its integrated snap hook and carried effortlessly thanks to its low weight.

Long battery life

The KEYCO LoRa[®] GPS Tracker transmits data via the LoRa[®] network and therefore requires up to 5 times less energy than the GSM network. The battery life can also be extended by reducing the locating frequency.

Signal lights (Calming function)

A KEYCO LoRa[®] GPS Tracker can calm a person in an emergency situation. A signal light informs him about the sending of his call for help. He can also confirm the activity of the tracker repeatedly by briefly pressing the button.

Multi-user capable

You can invite other owners of the 'KEYCO Plus' app to access your KEYCO LoRa® GPS Tracker. This allows you to share protection and care with family members, friends or colleagues and use a KEYCO LoRa® GPS Tracker more flexibly.

Easy handling

The 'KEYCO Plus' app can be operated intuitively and easily adapted to individual needs. The KEYCO LoRa® GPS Tracker's function key is straightforward and easy to use and explain to third parties.

Technical specification:

- Article name: KEYCO LoRa® GPS Tracker
- Manufacturer's item number: KT0013M01N/ESM
- Colour: Orange
- Product dimensions (H x W x D): 107 x 24,3 x 12,7mm (including snap lock)
- Product weight: 25,7g
- CPU: 32-bit ARM® Cortex®-M4F Processor
- Operating button: 1 Button, multifunctional
- Integrated LED: Blue, red LED
- Moisture protection: Jetproof (IPx5)
- Battery type: 180mAh Lithium Polymer
- Battery life: Up to 5 days via GPS and up to 40 days via LoRa® when locating in a 10 minutes interval (Localization via LoRa® is only available at selected network providers)
- Standby time: More than 125 days in sleep mode
- Battery rechargeable: Yes
- Charging connector type: Micro USB
- Snap hook: Yes
- Connectivity: LPWA LoRa™ Network, Bluetooth Low Energy 4.2
- GPS sensor type: Multi-GNSS (GPS/GLONASS/Galileo) All-in-One
- Acceleration sensor type: Tri-axial accelerator sensor
- OS compatibility: Android 5.0 or iOS 9.0 and above
- Operating temperature: -10~50°C
- Package contents: KEYCO LoRa® GPS Tracker, manual, charging cable (USB A to Micro B)
- Recommended retail price: 69,90€ (including value added tax)
